NIGHT VISION SPECIALISTS

M914 Night Vision Monocular

The M914 is based on the US military model AN/PVS-14. The M914 is a very versatile night vision system offering hand-held capability as a self contained pockscope for left and right mountings as a monocular, and quickly changed mountings on weapons sights in conjunction with an infrared laser aimer device. The M914 will mount or interface with standard AN/PVS-7B or AN/PVS-7D helmet mounts or facemasks. Optional magnification with 3x or 5x afocal objectives is available to provide long-range observation.
