## M949 Night Vision Aviator's Goggles

The M949 is based on the US military model AN/AVS-9. Northrop Grumman has made significant improvements to the ANVIS (Aviator's NV Imaging System). The M949 features binocular viewing for optimized depth perception. The large 25 mm eyepieces provides improved eye relief enabling excellent viewing while easily accommodating eye glasses. Ergonomically designed interface controls including inter-pupillary adjustments and vertical, fore-aft and tilt adjustments provide improved viewing of the entire system field of view (40 degrees).
