 - 5X Snap-On Afocal Lens
 - 6X Objective Lens (M961)

The M963 / M966 / M961 are based on the US military model AN/PVS-7. The M963 is intended for land use including vehicle driving, and is typically worn on a headmount or helmet mount. This rugged light-weight system allows independent eyepiece focus from +2 to -6 diopters, and includes a low battery warning light, an integrated infrared light source and a selection from several image tube specifications. The M963 allows for optional magnification with a 3X or 5X Afocal Snap-On Objectives whereas models M966 and M961 have a dedicated 4X or 6X Magnification Lens respectively.
