- Facemask of Ergonomic Design

The M973 is based on the US military model AN/PVS-7A. This goggle is intended for land use including vehicle driving. The improved design of its facemask allows comfortable use for hours when head mounted.

The M973 operates on two commercial "AA" batteries or a single military style BA 5567/U. The M973 was modified to meet special submergibility requirements for the U.S. Navy so that it can be stowed and transported in underwater conditions down to 20 meters. This new capability carries the designation AN/PVS-7C.
